

THE HAWAIIAN STAR.

PUBLISHED EVERY AFTERNOON
EXCEPT SUNDAY
BY THE HAWAIIAN STAR NEWS-
PAPER ASSOCIATION, LTD.ED. TOWNE, EDITOR
F. L. JOHNS, BUSINESS MANAGER
FRIDAY, NOVEMBER 1, 1901.The band is more than earning
its salary these soft moonlight
evenings.The drives about Honolulu
should be placed in the best possi-
ble condition. More tourists than
ever are about to come this way.May we expect a book from the
minister protem or shall his career
be depicted in comic opera for the
fleeing fancy of the interested mul-
titudes.It is reported as the wish of all
identified with the administration
of educational affairs that the new
High School should be made en-
tirely free on the same basis as
similar institutions in the United
States. The public school is a
feature of Republics.The incorporation of Honolulu
as a municipality is not to be
thought of for the present. It
would only make more politics and
more expense. As C. W. Ashford
said, in a tone of ownership and
originality as laughable as the serio-
comic strictures of the *Tier* on gos-
sip. "The people least governed are
the best governed." There is
now nothing present or lacking in
the administration of city affairs
which would justify a separate
town government for the capital.
All who have made a study of the
present system only commend it.A CONTEMPORARY critic notes that
it has discovered why THE STAR
suggests an option tax or license.
On a stage line in the United
States an inn-keeper charged \$2.25
for a cup of coffee and a pair of
socks. He said he did this
because he needed the money. But
there are better reasons for bring-
ing the option traffic within the
law. Firstly, there is local past
and active experience showing
the utility and cost of the present sys-
tem. Secondly, there are the ex-
amples of Great Britain and the
United States. And there are
other reasons.The Yvonne meetings, which
have now been under way a week,
may fairly be said to have reached
the period of success. The attend-
ance to hear the eloquent and ear-
nest revivalist has steadily increased,
and there is beginning to be a show
of results. Of all the men engaged
in this particular church work,
Rev. C. H. Yvonne is one of the
ablest, and his discourses, most
pleasingly delivered, are marvels
of pulpit oratory. Mr. Yvonne would
be an attractive speaker on any
subject. On the theme of salva-
tion he is powerful and magnetic,
and his manner and message are
deeply impressive.IN THE State of Connecticut the
General Assembly has established
October 15 as "Lincoln Day" and
the other commonwealths are ex-
pected to follow this action. The
date is fixed arbitrarily so that no
other holiday may divert attention
from a time set aside to honor the
memory of the great emancipator
and lover of the plain people. Lin-
coln and his career now command
the enthusiastic homage of the
Southern as well as the Northern
citizens of the United States and
other nations have been so impress-
ed by the work of the man that
throughout the world there is never
hesitancy in paying tribute to his
name and fame.HARRY GILLIG will still be a
young man on pleasure bent when
the Nicaragua canal is completed.
Then he can see the fall horse races
and regattas on the Atlantic sea-
board and cut down the coast and
across to Honolulu in a very short
time. Besides the saving in time
and distance he can avoid the prob-
able bad weather of the Horn.
About the time of the new trip,
too, Mr. Gillig can enjoy sur-
fing in mid-winter at Waikiki
and send a cable about it to his
friends in the United States. Hon-
olulu will draw the travelers of
the world when there are the proper
facilities for them. The climate
and the diversions simply cannot
be approached.ANOTHER payday met by the
Government. Money still left in
the treasury and credit A. For
some unaccountable reason the sit-
uation is in certain quarters a cause
for chagrin and disappointment.
However, advocacy of retrenchment
and reform is never out of order.
But it should be in good faith. It
properly should not take the form
of a deluge of personal abuse, mis-
representation and gloating over the
imaginary or possible predicaments
of officials or the country. Bond sell-
ing and borrowing, it is true, must
cease sometime. Perhaps the period
for calling a halt is close at hand.
A safe course is to maintain a
credible establishment and draw
upon legitimate resources. Credit-
able establishment may be taken to
mean good schools, a sufficient and
fairly paid civil service, a small
army, continuance of public im-
provements and taxes so low that
investors will not pause in fear of
burdens that may be inflicted up-
on their holdings.

Timely Topics.

October 28, 1895.

This city is surely getting
down to business again and if
the "filibuster fiend" can be
muzzled things will brighten
up and remain good for the
next six months at least. The
price of sugar seems to be on
the advance and if there is
really a shortage of crops in
other sugar producing countries
Hawaii will reap a rich benefit.
Many people believe that an
advance in the price of raws
does not help people generally;
we are not inclined that way;
we know that if plantations re-
ceive a little more than the
average price for their output,
the manager looks around with
an "improvement gaze" in his
eyes. He will buy new plows
(Hendry's); he will secure a
new windmill (Aermotor); he
will put up a new fence (Jones
Locked); and in other ways
distribute money around and
we all share in the general
prosperity. More private
dwellings will be put up in Ho-
nolulu; we like to see work in
the latter direction for it gives
us an opportunity to mention
something about an excellent
stock of chandeliers and hang-
ing lamps now on hand. The
goods have just been unpacked
and the line is better than
ever. Some samples are hung
from the ceiling of our store;
they are artistic specimens and
require no praise from us.
They are all fitted with the
Bradley & Hubbard burners—
none better are made. We
have piano lamps with either
oil or paper shades; boudoir
lamps and the regular hanging
lamps; all new designs. These
goods were selected for the
holidays; it would be a wise
move for you to make your
selection now before the line is
broken.We have some pretty tables
with metal frames and onyx
tops; no prettier piece of furni-
ture can be made and if you
wish to make a hit with your
wife, you will purchase one.
We expect the next Spec-
kel's packet to bring us a num-
ber of the Golden Gate im-
proved stone filters; we have
had many orders for these fil-
ters and will soon be in a posi-
tion to supply the demand.The Australia brought us a
supply of "Alaska's" refrigera-
tors and ice chests. The merits
of these food preservers and ice
savers are known to a great
many housekeepers in Hon-
olulu. Better have one in the
house instead of the one you
are using.The bicycle craze promises
to become epidemic; doctors
say that riding a bicycle is a
most healthy and invigorating
exercise providing that you do
not ride a wheel that is con-
stantly breaking or getting out
of repair. A poor wheel keeps
one's temper at a white heat
and for that reason is not the
best health-producer.We handle the Monarch and Tri-
bune bicycles; both have stood
the test and are victors. We
will quote prices on application.
The S. N. Castle brought two
G. Tribunes; they are for ladies
and are away up in G. as the
saying goes. If you are think-
ing about buying a wheel, call
and see us. Our experience
may enable us to give you
some valuable advice.THE HAWAIIAN HARD-

BY AUTHORITY.

Regulations of the Board of Health
OFFICE OF THE BOARD OF HEALTH,
Honolulu, October 30, 1901.All restrictions upon shipping and
passenger travel between any port and
between Honolulu and other parts of
the Hawaiian Islands are hereby re-
voked.By order of the Board of Health,
J. T. WATERHOUSE,
President.

NOTICE.

In accordance with the provisions of
Section 7 of an Act entitled "An Act to
regulate the carrying of passengers and
freight and the letting to hire of car-
riages, wagons, carts, drays and other
vehicles in the District of Honolulu,"
approved August 1st, 1878, notice is
hereby given that Hack Stand No. 4,
located on the makai side of Hotel St.,
east of Nuuanu street has been this
day abolished.J. A. KING,
Minister of the Interior.
Interior Office,
October 30, 1901.

WEIGHT OF BIRDS' HEARTS.

They Are Heavier in Proportion Than
Those of Animals.Most people will be surprised to learn
that the hearts of birds are far heavier
in proportion than the hearts of ani-
mals, including man, but a little ex-
planation will show that this is quite
natural. The more the body works the
greater the demand upon the heart, upon
which falls the duty of driving the
blood through the body; hence the heart
develops and becomes heavier. Every-
body knows that birds are among the
most active and hard working of living
creatures. The swallow can overtake an
express train. The falcon will carry a
load weighing three pounds in the air
without hindrance to its power of flight
or its speed. In short, they have a tremen-
dous capacity for work.
The celebrated ornithologist, Mayr,
states that a sea gull weighing 1½
pounds is capable of performing in one
second work equivalent to raising a
weight of nine pounds one yard high. A
man weighing 150 pounds, to be equal
to the sea gull, would have to lift 750
pounds one yard high in one second.
If a man becomes an athlete or carries
heavy loads, his heart grows propor-
tionately. No wonder, therefore, that
the hearts of our active feathered friends
are strikingly heavy as compared with
the bulk of their bodies.
The average weight of the human
heart in normal circumstances is five
one-thousandths of the total weight of
the body. Dr. Carl Parrot has lately
weighed the hearts of various animals
and birds and has found the averages to
be as follows: The figures representing the
one-thousandth parts of the total
weight: Pig, 4.51; ox, 4.49; sheep, 6.01;
horse, 6.11. The domestic animals thus
come fairly close to man. The wild
reindeer has an exceedingly heavy heart
—11.5.Most birds are a long way ahead of
animals. The carrier pigeon comes out
at 12.25; the common sparrow, 10.22;
the hobby, an extremely active species
of falcon, 16.98; and the song thrush,
25. The heart of the last named is thus
fifteen times heavier than that of man in
comparison with the total weight—
Pittsburg Times.Wanted It Absolutely Safe.
When the bank was at its height, an ex-
cited porter in a month's time asked for
half an hour's leave of absence one day in
order that he might take his money out of
a bank and put it in a safer place. It was
granted, and at the end of the stipulated
time he returned, looking immensely re-
lieved.
"Well, Jacob," said his employer, "did
you now your money safe?"
"I did, sir," replied Jacob.
"What bank was it in?"
"It was in a safety deposit vault."
"The mischief it was! And where have
you deposited it now?"
"I gave it to the old woman, sir."—Chi-
cago Tribune.

SEQUAH

cures
chronic
cases.Forty years ago Mr. F.
Stubbs of South Dunedin,
commenced to have sciatica.
He spent time and money
looking for a cure, but until
he used Sequah's remedies
he was never free from it.
Grateful for his release from
such a complaint of so long
standing, Oct. 17th, 1894,
he writes:
"I thank you for the great
benefit I have received from
the use of your Sequah Oil
and Cure. I have been
troubled for over 40 years
with sciatica. Tried different
remedies and spent a lot of
money doctoring with no
benefit. I decided to give
your remedies a trial. In a
few days I found great relief,
and now I can climb a
ladder or dig with a spade,
neither of which I have
been able to do for the past
30 years. I trust others
similarly afflicted will try
your remedies, from which
I have received such wonder-
ful benefit.
Yours gratefully,
(Signed), F. STUBBS."Hobron Drug Co.

"SEQUAH" LTD., LONDON.THIS WEEK
We want to sayThat the very latest filibuster story is to the effect that
Ester, the well known revolutionist, is to come to Hon-
olulu in a rickish looking craft with the avowed intention
of wiping the Hawaiian Republic off the earth. Of course
he won't come; but if he should decide to do so, we
would give him a good run for his money. When the
filibusters do come, they will sack the stores; our store
would naturally attract their attention first because we
carry such a large stock of New Goods—goods that we
want to dispose of before the invasion. This week marks
a Special Sale of Blouses for ladies; Children's Dresses
and Pinafores; Skirt Embroideries, and Fine Laces,
both Linen and Valenciennes—all perfect goods and at
low prices.M. S. LEVY,
Fort Street

WHEELS

TESTED.

Besides testing our Wheels by fast and hard
riding, our riders yesterday conducted a very suc-
cessful test on King street, which has fully satisfied
us (and the riders) that the high grade wheels we
handle have the proper stuff in them, and plenty of it.Our riders selected King street opposite Mr. S.
Parker's residence as the best place to make the test.
We had four Wheels out, and they were coming along
at a "clip" that would have heated the bearings of
many so called high grade cycles. At the proper
time the Little Chap tied the combination up, and
the test begun. There were Wheels in the air,
Wheels in the middle and on both sides of the road,
and riders going towards town as if they were late
for dinner. After picking themselves up, and the
Wheels, it was found that, as was to be expected,
there was not a piece of metal broken in any of the
four Wheels. The only damage done to the metal
parts was a bending of a part here and there, which
Dr. Wooten straightened out in a few moments this
morning. Our riders say they won't conduct any
more of these tests for us, and we thought they would
not want to, so we had the four Wheels tested at
once, and now we are satisfied that what the makers
say about the Wheels is true, and we back up their
guarantee fully.When you want a first class Wheel, one that
won't go to pieces under you if you happen to ride
off a sidewalk, call at the headquarters for high grade
Wheels in Honolulu, and you will get what you
want.We have sold every RAMBLER and COLUMBIA we
had in stock, but will have a big lot on the Aus-
tralia when she returns.

For the BEST WHEELS go to
